

SOLUTION AID

GP Resuscitation - Basic Life Support (BLS) and Automated External Defibrillator (AED) update course - 2 hour update course

Solution Aid is approved to run First Aid Training certificated by Rescue & Emergency Care (REC) & Nuco Training

This is a 2hour onsite course tailored to meet the requirements of CQC.

This course is suitable as a yearly resuscitation update to meet CQC requirements.

Resuscitation scenarios are used to encourage teamwork.

We will evaluate your resuscitation equipment and provide advice.

Automated External Defibrillator (AED) training practice is included.

We will provide one manikin and a training AED per two candidates to provide plenty of 'hands on' practice.

This intensive Basic Life Support training can be tailored to suit the needs of your practice and staff.

Training can be tailored for clinical and non-clinical staff both separately or together.

Who is it for?

Dentists, Nurses, Hygienists other clinical staff and administration staff.

Number of candidates

The maximum recommended number of candidates per course is 20. If you require more than 20 candidates trained at the same time, please contact us to discuss how this can be achieved.

Itinerary

This course is normally run over a 2 hour period.

Assessment

Assessment for this course is continuous over the 2 hour session, so therefore attendance over the full two hours is mandatory.
